## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 4, 5, 7, 10-14, 18 and 19 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 10 and 14 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly **disclose an interface unit within an atm slave unit which is in communication with an ATM master slave unit via an UTOPIA format, where the interface unit comprises an input unit coupled to an input buffer unit exchanging control signals with one another, the buffer unit including a FIFO configured to store 2 data cells received from the input unit to permit the data cells to be transferred on consecutive clock cycles to a destination, transferring the data cells to a DMA unit in response to a first READY signal. The interface unit also includes a register and calculation unit for generating a destination location for the data cell, and an output buffer unit FIFO receiving data cells from the DMA in response to a second READY signal and exchanging control signals with the DMA. The interface unit also includes an output unit receiving data cells from the output buffer unit, the output unit exchanging control signals with the ATM master processing unit.**

It is noted that the closest prior art of record Holm et al. (US 6122680) teaches an integrated circuit including a receive FIFO in communication with a DMA and a

Art Unit: 2416

transmit FIFO in communication with a DMA for routing data. However, Holm fails to disclose or render obvious the above underlined limitations as claimed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER P. GREY whose telephone number is (571)272-3160. The examiner can normally be reached on 10AM-7:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Moe Aung can be reached on (571)272-7314. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
